

- ▶ **10 memory push-buttons**
- ▶ **reception volume setting**
- ▶ **IP66 weatherproof handset**

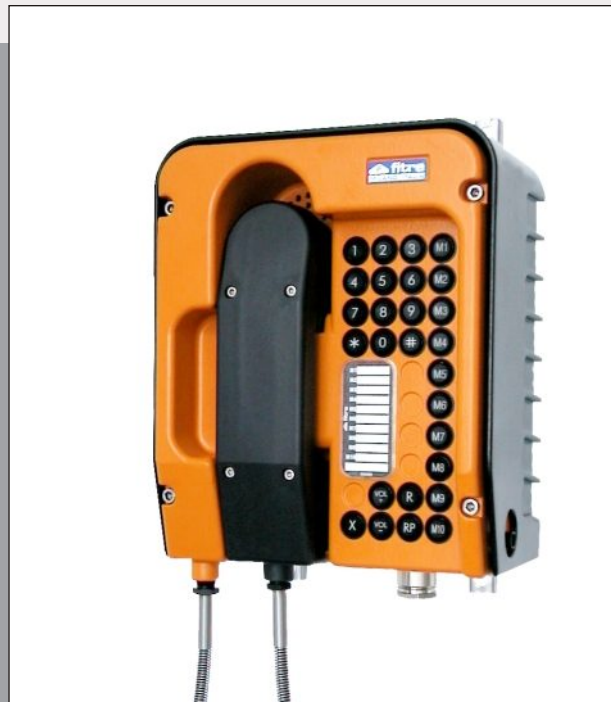

#### GENERAL DESCRIPTION

The new telephone set has been projected for satisfying the demands of equipments suitable to be used in industrial and military heavy environments. The **TAS2000 memo** telephone set can be supplied with a lot of configurations offering the following features:

- telephone keyboard (12 push-buttons)
- n. 3 function push-buttons:
  - "R" flash push-button, used too as "earth" push-button
  - "RP" last number redial push-button
  - "X" line liberation push-button, for interrupting the conversation and taking the line free without hanging up the handset
- n. 10 push-buttons (M1 ÷ M10) for direct calls of prememorized telephone numbers. Each push-button can be programmed by the operator and can record a telephone number of max 20 ciphers  
The users can program the memories using the telephone keyboard or an additional keyboard that can be temporarily connected on the internal master board.
- two push-buttons "VOL+" and "VOL-" for adjusting the reception volume in the handset receiving capsule or in the headset.
- Possibility to send automatically a pre-programmed direct call when the handset is picked up.
- Handset with standard dynamic microphone capsule.
- The model that foresee the connection of one headset is in addition equipped with:
  - weather-proof plug
  - headset ON/OFF push-button
  - led for signalling the status of the ON/OFF push-button
  - hook for hanging-up the handset
  - the number of memory push-buttons is reduced at 8.
- Optional additional clean contact on the hook for low voltage external circuits driving.
- The telephone set is realized according with the European rules TBR38 and EN301.437

# TAS2000 MEMO

## WEATHERPROOF ACB TELEPHONE SET

#### TECHNICAL CHARACTERISTICS

*Suitable to use with PABX having:*

- battery voltage: 24 ÷ 60VDC
- current: 18 ÷ 60mA
- call voltage: 25 ÷ 75V / 23 ÷ 55Hz

*Working temperature: -20 ÷ +70°C*

*Weather-proof IP66 light alloy case:*

- rear side Black RAL 9017 colour
- front side Orange RAL 2000 colour

*Weight: 5,5 kg*

*Dimensions: 270 x 230 x 140 mm*

**PULSE SELECTION:** 1,5 : 1 (60:40ms) or 2:1 (66,7:33,3ms)

**DTMF SELECTION:** in compliance with the rules EN301.437

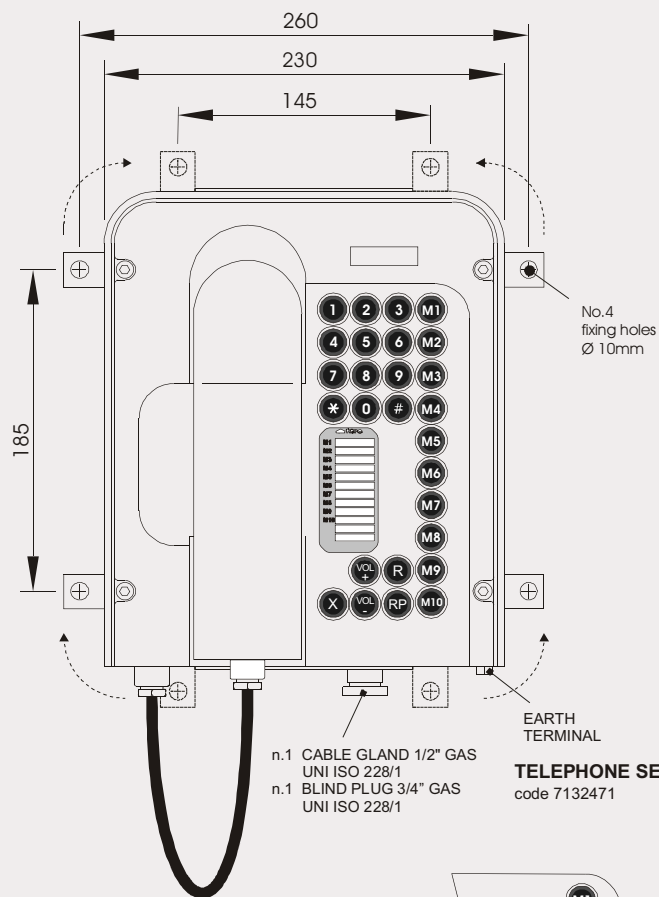

**FLASH:** 100ms - 270ms

**ACOUSTICAL CIRCUIT:**

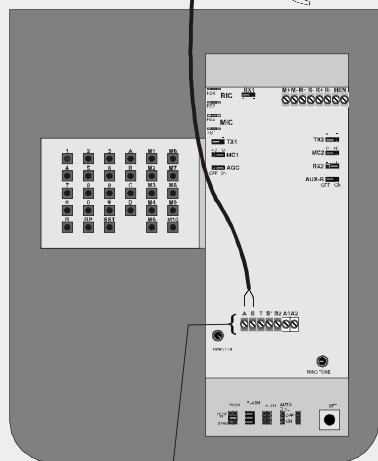

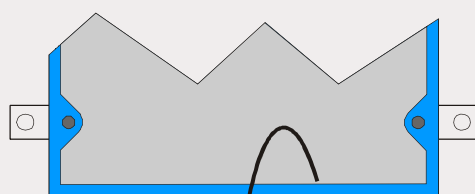

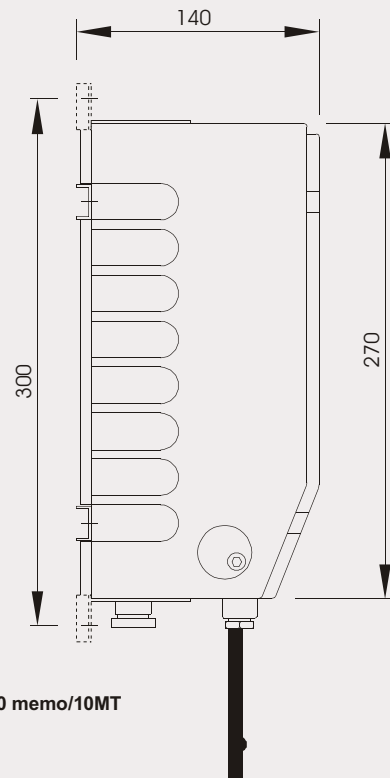

- adjustable output tone frequencies
- tones frequency variation: 10Hz
- input impedance at 70V - 25Hz: ≥ 7kohm
- input impedance at 70V - 50Hz: ≥ 4kohm
- sound intensity at 1m distance with 70V 25Hz: 92dB

**HANDSET:**

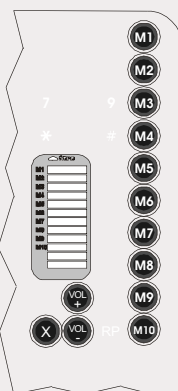

- totally weather-proof (IP66)
- Dynamic capsules 150 ohm
- Handset cord protected by stainless steel spiral.
