

AG/F-GRP

INDUSTRIAL ACOUSTIC HOOD - 23,9dB

- Glass fibre Reinforced Plastic laminate construction
- Suitable for use with telephone and Page Party equipment
- 23,9dB Mean noise reduction
- Polypropylene interior
- 50mm acoustic lining panels
- Internal gear plate for ease of equipment mounting
- Up to 60kgs of equipment can be carried
- Detachable internal shelf
- External mounting straps
- Fire retardant

TECHNICAL SPECIFICATIONS

Body Material - Main Body and Detachable Shelf:

General Purpose Resin continuous filament mat

Acoustic Damping:

Insulation - 50mm Tissue faced non hygroscopic Rockwool RW3, Density 60kg/m³

Acoustic Facing:

Internal Lining - White Perforated Polypropylene 3mm thickness

Fire Resistance:

BS476 Part 7 Fire Retardant Classification of 1

Telephone Mounting Plate:

304 Grade Stainless Steel 2mm thickness, powder coated white

Mounting Brackets:

Galvanised Mild Steel 6mm thickness

Options:

316 Grade Stainless Steel mounting brackets, 6mm thickness

316 Grade Stainless Steel apparatus plate

Mounting Straps:

Galvanised Steel - Standard
 Stainless Steel - Option

Colour:

Yellow RAL1006 as standard
 Other option available

Weight:

approx 25kg

Dimensions:

H 920 x H 700 x H 600 mm
 Fixing: W 740 x H 575 mm
