

Indoor, weatherproof and explosion-proof phones (analog & VoIP)
P/N 7137126

Explosion-proof analog ACB telephone outdoor use

The TAS26 Z2 is a stylish telephone for outdoor use, suitable for ATEX certified explosion-proof areas (Zones 2 - 22).

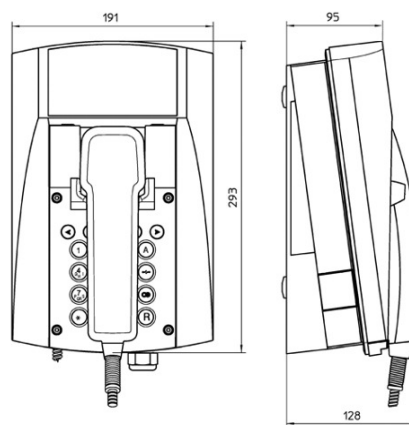

Its modern design is the perfect "packing" for the finest high-tech and its striking signal colours ensure that TAS26 Z2 cannot be missed whenever a telephone is urgently needed, e.g. in case of an emergency in poor weather and light conditions.

The TAS26 Z2 is suitable for almost universal use thanks to its amazing transformability. A deft hand movement and the desk telephone for indoor use is converted into a wall telephone for outside use.

The stylish housing is made of impact-resistant and shockproof plastic moulding.

Even acids, alkalis or lubricants cannot damage the high-quality components of our new versatile desk/wall telephone.

- ATEX certified for Zones 2 - 22:
 - II 3G Ex nA L IIC T5
 - II 3D Ex tD A22 IP65 80°C
- Sturdy polycarbonate case
